SRI RAGAV SURYA A

GRC| SOC Analyst | Digital Forensics & Incident Response (DFIR) | Web Penetration Tester

Coimbatore | +91 8870726999 | sriragavsurya@gmail.com | linkedin.com/in/sri-ragav-surya

PROFESSIONAL SUMMARY

Cybersecurity graduate pursuing an M.Sc. in Information Security & Digital Forensics, with a strong competitive track record including 4th place in the international-level CTF hosted by Karunya Institute of Technology and Science and a Top 50 finish at DEFCON CTF. Hands-on experience in penetration testing, network vulnerability assessment, web application security, and malware analysis, developed through practice on Hack The Box, TryHackMe, and PicoCTF. Also skilled in full-stack development using Java and Python. Seeking a SOC Analyst / Security Engineer role to apply offensive and defensive security expertise in protecting enterprise environments.

TECHNICAL SKILLS

Comprehensive Security Operations: End-to-end expertise spanning offensive penetration testing and web security (OWASP) to defensive SIEM management, vulnerability assessment, and digital forensics (DFIR).

Development: Full-Stack Development (Java, Spring), REST APIs, Secure Coding Practices

Tools & Platforms: Nmap, Metasploit, Burp Suite, Wireshark, Gobuster, Linux CLI, Kali Linux

Programming: Java, Python, JavaScript, Bash

EXPERIENCE

Cyber Security Engineer

Pitowings | Feb 2025 – May 2025

- Performed manual testing and Vulnerability Assessment and Penetration Testing (VAPT) on web applications using Burp Suite, Nmap, and dirb to identify OWASP Top 10 vulnerabilities and business logic flaws.
- Authored comprehensive security assessment reports detailing risk ratings, technical Proof of Concepts (PoCs), and remediation guidelines for development teams.

ACHIEVEMENTS

- Placed 4th in the international-level CTF hosted by Karunya Institute of Technology and Science.
- Ranked Top 50 in DEFCON CTF, one of the world's most competitive information security competitions.
- Competed in national-level CTF challenges on PicoCTF, Hack The Box, and TryHackMe, covering cryptography, binary exploitation, digital forensics, and web security categories.

PROJECTS

Advanced Web Vulnerability Scanner **2026**

Python | Requests | BeautifulSoup

- Built a depth-limited web crawler with automated scanning for SQL injection, XSS, open redirects, and directory traversal vulnerabilities.

Epoteck Full-Stack Website **2026**

Java | Spring Framework | Deployed

- Designed and developed a secure web application using the Spring Framework with RESTful APIs.
- Implemented authentication, authorization, and database operations following secure coding practices.

CERTIFICATIONS

- Certified Social Engineering Defense Practitioner – SecOps Group
- CompTIA Network+ (N+) and A+
- Python Programming
- Java Programming – Udemy
- Full-Stack Web Development – Udemy

EDUCATION

M.Sc., Information Security & Digital Forensics **2025 – 2027**

Karunya Institute of Technology and Science | CGPA: 8.3 / 10

B.Sc., Information Security & Digital Forensics **2022 – 2025**

Karunya Institute of Technology and Science | CGPA: 6.0 / 10
